Growth	370mm (172mm/year)	
Movement	360km south along coast	
Released	No	
This is the furthest south a fish tagged in the Fitzroy has been recorded.		

Tag details		Recapture details
Tag	U49859	
Species	Barramundi (<i>Lates calcarifer</i>)	
Date	7/11/2010	6/3/2013
Length	305mm	640mm
Location	12 Mile Creek	Gavial Creek
Fisher	Michael Powell	Dave Curry
Days Out	850(2.3 years)	
Growth	370mm (172mm/year)	
Movement	95km down creek then up river and up creek	
Released	No	
These 2 fish were tagged in the same place about the same time but moved in opposite directions when they left the nursery area. This one is unusual in that it left a brackish/freshwater area for the estuary then re-entered freshwater. That does not happen often.
